Chapter 6:	Difficulty = 6 = "Challenge"
Chapter 7:	Difficulty = 7 = "SuperHard" (coming soon)
Chapter 8:	Difficulty = 8 = "Outrageous"
Chapter 9:	Difficulty = 9 = "TooTough"

Notes

This compendium contains about 300,000 puzzles with solutions. In addition, Chapter Z contains more than 200 puzzles from easy to very difficult with hints and Step by Step solutions. The Brophy Method of minimal markup using Subitizing Scans, Buddy Cell analysis and True/False Chains was created by Joe Brophy. All the puzzles contained herein were generated by computer by Joe Brophy. All the other material in the compendium was obtained from open sources on the internet and those sources are credited where possible and/or known. If a copyright infringement has been made, please notify josephbrophy@brophy.net for remedial action. This document is in the public domain and should not be copied for commercial purposes.
